

## About Class Units

You can set various rules such as the assignment order of multiple teaching materials or a condition that requires students to obtain a passing grade to move on to the next material. Please note that if you want to utilize Class Units, you will need to create the teaching materials to be added in the Class Units in advance.

### 【1】 Basic Settings

1. After logging in to e-class, select the course you would like to edit.

The screenshot displays a web interface for managing class numbers. On the left, a sidebar contains a '検証' (Verification) button and a status message '検証(教員) is logged in.'. The main area is titled 'Class Number [1]' and includes a header instruction: 'Select content from Communication Tools list, Textbook list, and or Exercise/Report/Question list to add to this Class Number and then, click Add button'. The interface is divided into three sections: 'Communication Tools list' with a search box containing 'test' and an 'Add ->' button; 'Textbook list' with an empty box and an 'Add ->' button; and 'Exercise/Report/Question list' with a list of items ('第1回レポート', '第2回レポート', '第4回レポート') and an 'Add ->' button. Red annotations show the workflow: ① points to the 'Exercise/Report/Question list', ② points to the 'Add ->' button, and ③ points to the 'Save' button in the bottom right. The right side of the interface shows the 'Class Number' list with '1. 第1回レポート' at the top, and buttons for 'Up', 'Down', 'Delete', 'Save', and 'Clear All' at the bottom.
